

***Resolution in Honor of John Levin  
Chair of the MACRUC Staff Energy Subcommittee***

WHEREAS, John Levin served as Staff Chair of the MACRUC Staff Energy Subcommittee from July 2003 to September 2006 and his service to the Pennsylvania Public Utility Commission has spanned more than 25 years; *and*

WHEREAS, John also serves with distinction as a Pennsylvania PUC Staff representative at NARUC staff subcommittee on Electricity; *and*

WHEREAS, John is always willing to help other state staff in understanding PJM wholesale market issues and FERC proceedings; John's knowledge of regulatory issues in both wholesale and retail fields has made him a much-sought-after drafter of state joint comments for both MACRUC states and OPSI states; *and*

WHEREAS, John's participation in the FERC Reliability Pricing Model Settlement Process provided a valuable service by keeping MACRUC states informed, where appropriate, about the settlement and the development of PJM capacity market reform; *and*

WHEREAS, as a discriminating photographer and speaker, John has a low tolerance level for poor presentations or pointless speeches, as well as for the term "usual suspects"; *and*

WHEREAS, John's messages on PJM/FERC news have been, in many instances, received by state PUC staff before they heard from FERC or trade journals; *and*

WHEREAS, all who know John hope that he will continue to be available as a resource to MACRUC commissioners and staff, given that his knowledge and wisdom is a near irreplaceable asset; *and*

WHEREAS, No one in MACRUC's history has drafted and distributed so many information "e-mails" as John; *now therefore be it*

RESOLVED, That the members of the MACRUC, convened in its 2007 Winter Meetings in Washington D.C., extend their sincere appreciation to John Levin for his talents, knowledge, outstanding public service and his leadership in building consensus on MACRUC energy matters, and convey to him their best wishes for his continuing service to the Pennsylvania Public Utility Commission and others in the regulatory community.
